

Prayagraj Gharia

Thunder Bay, Ontario, Canada | prayag.gharia98@gmail.com | linkedin.com/in/prayagrajgharia

PROFESSIONAL SUMMARY

Results-driven Full Stack Software Developer with 3+ years of professional experience building scalable, high-performance web applications. Expertise in ASP.NET MVC, JavaScript frameworks (ReactJS, Angular), SQL optimization, and modern web technologies. Proven track record in leading development teams, implementing SEO strategies, and delivering data-driven solutions that enhance user experience and business outcomes. Strong foundation in both frontend and backend development with experience across the full software development lifecycle from requirements gathering to production deployment.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), C#, Python, SQL (T-SQL), HTML5, CSS3, TypeScript

Frontend Technologies: ReactJS, Angular 7, jQuery, AJAX, Bootstrap, Responsive Design, Component Architecture

Backend Technologies: ASP.NET MVC, Classic ASP, Node.js, RESTful APIs, Microservices, Server-Side Rendering

Databases & Data: Microsoft SQL Server, Oracle, Stored Procedures, Query Optimization, Indexing, Database Design

Analytics & Optimization: Google Analytics (GA4), Google Search Console, Adobe Analytics, Adobe Launch, PowerBI, SEO

Development Tools & Practices: Git, Visual Studio, Agile/Scrum, CI/CD, Code Review, Unit Testing, Debugging

CMS & Platforms: Content Management Systems, WordPress, E-commerce Platforms

Soft Skills: Team Leadership, Cross-Functional Collaboration, Client Communication, Problem Solving, Mentoring

PROFESSIONAL EXPERIENCE

Full Stack Developer

Sencia Canada Ltd

July 2024 – Present

Thunder Bay, ON

- Architected and maintained full-stack web applications using Classic ASP and ASP.NET MVC, implementing scalable frontend and backend solutions that improved application performance by optimizing code structure and reducing page load times
- Engineered complex SQL stored procedures, triggers, and functions while optimizing database queries using advanced joins, indexing strategies, and execution plan analysis, reducing query response times and enhancing overall database performance
- Developed dynamic, interactive web interfaces using jQuery and AJAX for seamless asynchronous data operations, and implemented comprehensive JavaScript form validation systems with real-time feedback to ensure data integrity and improve user experience
- Spearheaded web performance optimization and SEO initiatives by conducting technical audits, managing monthly analytics reports, implementing on-page optimizations (meta tags, schema markup, site speed improvements), and monitoring key metrics via Google Search Console and GA4, resulting in measurable improvements in organic search visibility and user engagement
- Led client collaboration efforts to gather technical requirements, provide data-driven recommendations, and translate business needs into technical specifications while maintaining ongoing website infrastructure to enhance UX and search engine rankings
- Coordinated with cross-functional development teams through weekly sprint check-ins, code reviews, comprehensive QA testing cycles, and production releases, ensuring timely delivery of high-quality software solutions while maintaining 99% uptime
- Debugged and resolved critical production issues by analyzing error logs, implementing fixes, and documenting solutions for knowledge sharing across the development team

Technical Support Technician

Tbaytel

February 2023 – July 2024

Thunder Bay, ON

- Delivered comprehensive technical support for Home Phone, Internet, TV Box, Security Systems, and Mobility services, consistently achieving high customer satisfaction through effective problem resolution
- Diagnosed and resolved complex technical issues using systematic troubleshooting methodologies and network diagnostics tools, demonstrating strong analytical and technical communication skills

ADDITIONAL WORK EXPERIENCE

Frontend Developer Intern & Squad Lead <i>Vosyn</i>	January 2024 – April 2024 Etobicoke, ON
<ul style="list-style-type: none">Led a development squad in building full-stack web application features using ReactJS, implementing component-based architecture and modern JavaScript best practices for maintainable, scalable codeDeveloped responsive and accessible user interfaces using ReactJS, JavaScript (ES6+), HTML5, and CSS3, ensuring cross-browser compatibility and mobile-first design principlesFacilitated agile development processes including sprint planning, code reviews, and daily standups, fostering team collaboration and ensuring consistent delivery of sprint goals	
Web Analytics Developer (Assistant Systems Engineer) <i>Tata Consultancy Services</i>	July 2019 – December 2020 Pune, India
<ul style="list-style-type: none">Engineered production-ready web applications using Angular 7 framework, rapidly mastering TypeScript and Angular architecture patterns to deliver feature-rich single-page applications within project timelinesDeveloped comprehensive web analytics and tagging solutions using Adobe Analytics, PowerBI, and SQL Server, creating custom dashboards that enabled data-driven business intelligence for stakeholdersImplemented JavaScript-based web tagging infrastructure across multiple client domains using Adobe Launch, ensuring accurate tracking of user interactions and conversion events for business-critical KPIsOwned end-to-end monthly business reporting for two product domains, designing automated PowerBI dashboards and generating actionable insights from Adobe Analytics and SQL data sources	
Customer Experience Associate (Part-Time) <i>Walmart</i>	September 2021 – January 2023 Thunder Bay, ON
